Materials provided, but bring Sharpie markers,
yellow highlighter, metallic markers, pencil, and
favorite design patterns if you have any.

Space is limited; Register by November 13th
309-467-2922

The mandala is a circular form used in art across cultures. From cathedral rose windows and sacred Tibetan sand paintings to the shapes of blossoms, cells, and planets, mandalas surround us and reflect a geometry of inner/outer balance. Learn about these universal visual symbols as you explore your creative side by making your own circular holiday design. We will be using transparent silk hoops and colorful markers to create sun catcher ornaments. Sample circular templates will be available, or you are encouraged to bring your own designs or work free hand to create your own colorful imagery.
